A requisition is a number assigned by your agency for internal tracking of obligated funds. The format is x-xxxx, where the first number represents the current fiscal year (for example, for fiscal year 2007 the requisition format would be 7-xxxx). This number changes with each fiscal year and must be updated by your agency. All Online Paper Store transactions will be charged under the requisition number you provide. Your requisition number can be up to 18 total characters. The first 5 characters after the hyphen must be numeric.

If you don't know what requisition number to use, please contact the Printing Officer at your agency or your GPO National Account Manager (www.gpo.gov/customerservices/nams.htm). You may also complete the Inquiry of Interest form.
